

Dodeca Ten-minute Tech Talks

Keyteach

Dodeca has partnered with Keyteach, the award-winning global leader in Oracle Hyperion and EPM Cloud training. We collaborated to create the Dodeca interactive training portal to provide step by step instructions to get Dodeca users up to speed fast!

Our next endeavor is to sponsor Keyteach to deliver Essbase 21c training for experienced administrators ready to upgrade. In this talk, we'll give an overview of upcoming Essbase and Dodeca training offerings.

EssJet Technology

Dodeca Version 8 introduced EssJet Technology which allows Dodeca to run multiple Essbase retrieves at the same time. Dodeca can now simultaneously run multiple queries from a single sheet or from multiple sheets in a workbook, greatly enhancing performance. Come see our live interactive demonstration.

Workbook Analyzer

Over the years, Excel workbooks have grown to be large, slow, and unwieldy. We have found that workbooks accumulate unnecessary artifacts such as dead Excel links, #REF range names, extraneous styles, and unused Smart View data streams. The Dodeca Workbook Analyzer can analyze and clean these problem workbooks. Show us your worst spreadsheets and we'll show you how to clean them.

Essbase Spreadsheet Tips and Tricks

Join Tim Tow, Excel MVP Alumni and Oracle Ace Alumni will share some of the Essbase spreadsheet design techniques he has developed over the past 30 years. He will show off some of his best practices for improving spreadsheet productivity and reducing errors.

Introduction to DSMS

Learn about the Dodeca Spreadsheet Management System, the world's only High Productivity Spreadsheet Application Platform. Dodeca is used by many companies to create mission critical applications that are secure, dependable, and save time and money. Dodeca features such as read/write access to Essbase using EssJet technology, read/write access to SQL data sources, commentary for variance analysis, drill-through to anywhere, and robust extensibility provide the tools for companies to create highly tailored spreadsheet solutions.

Lexis Nexis AMA

Lexis Nexis has adopted Dodeca widely across their global organization. In this "Ask Me Anything" session, their administrators will show how they've used Dodeca to reduce their time spent during quarterly close by 280 work days. They will also answer your questions about their incredible implementation.

To learn how the Dodeca Spreadsheet Management System, the Dodeca Excel Add-In for Essbase and Drillbridge can help your company, contact us at:
