Dodeca® Spreadsheet Intelligence

Productionized Spreadsheets for Your Company

Featuring automated connectivity to all of your data sources including Oracle Cloud EPM, Cloud ERP, E-Business Suite, Essbase, and Oracle SaaS applications.

Increased Efficiency

Dodeca users save time and effort through automation and faster report retrieval times. This allows users more time for analysis and decision-making. Automation also reduces or eliminates manual spreadsheet maintenance efforts and eradicates spreadsheet bloat, while reducing spreadsheet risk.

Enhanced Integration

Dodeca integrates seamlessly and automatically with your corporate data sources making it fast and easy to combine data from different systems into a single report.

- ✓ EPM Cloud
- ✓ Cloud and On-Premises Essbase
- ✓ Cloud and On-Premises RDBMS's
- ✓ Oracle E-Business Suite
- ✓ Oracle Cloud Financials
- ✓ Oracle Cloud Applications
- ✓ Oracle REST Data Services
- ✓ Generic REST Data Sources

Dodeca also supports data entry to these sources.

Improved Collaboration

Dodeca is used by many companies for variance analysis and bridge analysis. Built-in functionality acts to gather, organize, and store analytic comments which are then available to other users and to different reports.

Additional Flexibility

Dodeca provides virtually unlimited opportunities for businesses to streamline their processes, regardless of the complexity or sophistication. Where other software fails to adapt, **Dodeca does it!**

More Standardization

Dodeca's patented process makes it easy for companies to standardize spreadsheets and spreadsheet operations in their organizations. Standardization brings repeatability and reliability to the spreadsheet, the world's most popular data analysis tool.
